

Inventory Stocking SOP

Notify Habib when low on a chemical dispenser and the restock chemical, give enough notice for Habib to order and come in a week to stock back up.

5 gallon dispensers:

- Tire Shine (Top Left):
1 gallon container of Malco Aqua Beads tire shine and 1 gallon of water (only need to make this amount and not to fill all the way up)
- Glass Cleaner (Top Middle):
4 cap fulls of P&S rinseless wash and 4 gallons of water
- Homemade Guf (Top right):
6 bottles of 16 oz 70% isopropyl alcohol and 6 bottles of 6 oz glycerin. (makes 1 gallon and dont need to make more)
- Carpet bomber (Under tire shine)
- Half bottle/half gallon of carpet bomber + 3.25 gallons of water. (total of 3.75 gallon)
- Pol star (Under Guf):
Always have a 5L pol star in inventory to fill up the dispenser. To fill up the dispenser put in 2.75 gallons of water and .25 gallons of pol star. (First bring water all the way to in between the 2.5 marker and 3 marker, then pour in chemical and should bring the entire volume up to the 3 marker)
- Dark Fury (Under Carpet Bomber):
2 gallons of water and .5 gallon of dark fury. (total 2.5 gallon)
THERE IS A HOLE AT TOP OF DISPENSER
- Acid (Between dark fury and carpet bomber):
2 gallons of water and .5 gallon of stinger 755 acid

Others:

- Always have a terminator bottle in each van as backup on a day and one in the inventory
